Highlights

Automatic circuit cleaning

Saeco designed this espresso machine to automatically clean its coffee circuit with water upon starting up or switching off of the machine, this delivers a great, fresh taste with each cup of coffee.

Saves your coffee length

You will always get a perfect cup of espresso brewed according to your personal preference thanks to our memo function which allows you to adjust the coffee length to suit your taste. Enjoy a superb coffee drink with just the press of a button.

5 step adjustable grinders

Different coffee blends require different levels of granularity for the full flavor to unfold. The grind granularity of this espresso machine can be adjusted in 5 settings, from the finest grind, for a full bodied espresso, to the coarsest, for a lighter café crème.

100% ceramic grinders

This espresso machine is equipped 100% ceramic grinders. Saeco uses ceramic grinders because of their consistent grind without overheating the coffee bean for an impeccable espresso. Ceramic also ensures long-lasting performance and a totally silent operation.

Classic milk frother

This Saeco espresso machine comes with the classic milk frother, which baristas call "Pannarello". It dispenses steam and needs to be immersed in the milk to prepare gorgeous milk foam. Unleash your inner barista by preparing your delicious milk specialties the traditional way!

Removable brewing group

The brewing group, a Saeco invention, is the heart of our espresso machines, ensuring automation. The brewing group is, depending on the model, easily accessible from the front or side. It can be removed effortlessly for easily cleaning by rinsing under the tap ensuring maximum hygiene.

Specifications

Perfect Espresso

- Espresso technology: Aroma-system: pre-brewing
